# Beautification in a Bucket Challenge

## Flower Department 2022

### Rules & How To:

5 gallon planters work great for growing annuals & veggie crops, but there are a few things you will need to do before planting your bucket to make sure it will survive the summer and the decoration.

- Find a 5-gallon bucket
- Drill server  $\frac{3}{4}$  inch drain holes in the bottom
- If painting the bucket, scratch the outside of the bucket and inside rim with course sandpaper or steel wool so paint will adhere to the surface
- Wash & disinfect the bucket with alcohol or bleach water, rinse and allow to dry completely before continuing with the decoration. Paint the planter with primer, using spray paint or brush on paint, and let dry. Decorations allowed. No vulgar or suggestive decorations allowed.
- Paint the outside of the planter and inside rim with your choice of color. It may take a couple of coats of paint, let dry at least 10 minutes between coats.

After the bucket is decorated, it's time to plant!

- Fill the bucket part way full of packing peanuts or plastic water bottles. This will help with drainage and the weight of the bucket.
- Plant flowers, herbs, veggies and succulents. No noxious weeds allowed.
- Exhibits will be judged on creativity, durability of design and health of plants combined for an overall presentation.
- Entries will be taken in Exhibit Building, Tuesday July 12 7:30-10am; release Saturday July 16, 4-5:00 pm

*Divisions classes will be broken after entries come in. Prizes will be awarded*

# *Welding is Fun Contest*
